Job Code/Level	Below Supervisory Level	
No. of Positions	5	
Department	In-House Project	
Location	Marampa Mines Site, Lunsar	
Reporting to	Project Supervisor/Superintendent	
Salary	Attractive	

ROLE AND PURPOSE

MML is seeking skilled and experienced Powerhouse Mechanics. As powerhouse mechanics, you will play a crucial role in ensuring the efficient operation and maintenance of power generation equipment within the powerhouse. This is an exciting opportunity for entry-level professionals to grow within a dynamic and challenging environment.

RESPONSIBILITIES

- Conduct routine maintenance and inspections of powerhouse equipment to ensure optimal performance.
- Perform preventive maintenance tasks on generators, engines, and associated machinery.
- Troubleshoot and repair mechanical and electrical issues in the powerhouse equipment.
- Collaborate with the Engineering team to identify and implement improvements to enhance equipment efficiency.
- Monitor and control the parameters of power generation equipment to maintain a stable and reliable power supply.
- Maintain accurate records of maintenance activities, inspections, and equipment performance.
- Adhere to safety protocols and ensure a safe working environment for yourself and others.

EDUCATION & EXPERIENCE

- Higher National diploma, its equivalent; technical or vocational training in mechanical or electrical engineering is preferred.
- Knowledge of power generation systems, engines, and mechanical components.
- Basic understanding of electrical systems and control panels.
- Minimum 3 years work experience as a Powerhouse Mechanic in an industrial setting.
