ROLE AND PURPOSE

We are seeking experienced and skilled Steel Fabricators to join our team. The successful candidates will be responsible for cutting, shaping, and assembling steel structures according to specifications. The Steel Fabricators should have strong understanding of welding techniques, be proficient in using various tools and machinery, and demonstrate a commitment to producing high-quality work.

RESPONSIBILITIES

- Interpret technical designs, drawings and blueprints to determine project specifications.
- Select and prepare materials to be used in fabrication processes, ensuring accuracy and compliance with project requirements.
- Operate cutting torches, plasma cutters, and other tools to cut and shape steel components based on project specifications.
- Perform various welding techniques, such as MIG, TIG, and stick welding, to join and fabricate steel components.
- Assemble fabricated parts to create structures, using hand tools, welding equipment, and other machinery.
- Inspect finished products for quality and adherence to design specifications, adjusting as necessary.
- Adhere to all safety guidelines and protocols to enhance workplace safety self and others.
- Perform routine maintenance on tools and equipment to ensure proper functioning and longevity.
- Collaborate with other team members, including engineers and project managers, to ensure effective communication and successful project completion.

Developing and growing talent and skills within
Sierra Leone, for Sierra Leone.

EDUCATION & EXPERIENCE

- National diploma or equivalent vocational or technical training in welding or metal works from a recognised institution.
- Minimum of 3 years of experience as a welder/steel fabricator in construction projects.
- Familiarity with safety regulations and protocols in industrial settings.
- Proof of previous apprenticeship/training in a related technical trade is an added advantage.

REQUIRED SKILLS

- Proficient in reading and interpreting blueprints.
- Strong welding skills (MIG, TIG, and stick welding).
- Knowledge of various welding materials, tools, equipment, and techniques.
- Ability to use fabrication machinery and hand tools effectively.
- Attention to detail and precision in work.
- Strong commitment to workplace safety.
- Excellent communication and interpersonal skills.

WORK ENVIRONMENT AND PHYSICAL REQUIREMENTS

- The individual must be physically and mentally fit for the mining work environment.
- The role may involve long periods of working in severe outdoor and indoor conditions.
- May involve lifting and moving heavy objects and working at heights.
- Flexibility to work extra hours including weekends and holidays.

HOW TO APPLY & CLOSING DATE

Please forward your application including your CV, cover letter, copies of your educational and professional certificates and any other supporting documents to **Marampa Mines Ltd. Human Resources** desk via the main entrance gate of the Mine Site, Lunsar or e-mail:
