<b>Department</b>	Engineering & Maintenance	
<b>Location</b>	Marampa Mines Site, Lunsar	
<b>Reporting to</b>	Engineering & Maintenance HME Superintendent	
<b>Salary</b>	Attractive	

### ROLE AND PURPOSE

Marampa Mines Limited (MML) is seeking a skilled Air Conditioning Technician to oversee maintenance and repair operations for air conditioning systems in heavy mobile equipment (HME). The technician will ensure that all systems operate effectively and comply with safety standards. This role involves training staff, managing workloads, and delivering high-quality service consistent with OEM specifications.

### RESPONSIBILITIES

- Ensure proper installation, calibration, and setup of air conditioning systems while adhering to high-quality standards.
- Inspect installations and monitor operations for compliance with design specifications and safety regulations.
- Identify maintenance risks and perform regular services on cooling units.
- Utilize specialized tools and diagnostic equipment to troubleshoot and repair system malfunctions.
- Provide exceptional customer service, offering clear explanations of necessary repairs.
- Supervise and guide Electricians on detailed procedures for both routine and hazardous work assignments.
- Plan and schedule daily tasks and manage the workload for the air conditioning team.
- Monitor work processes to ensure timely completion within budgetary constraints.
- Ensure that all maintenance and repair activities meet organizational quality standards.
- Advocate for compliance with safety protocols to enhance workplace safety.
- Actively participate in safety meetings and training sessions to promote adherence to safety practices.
- Maintain a safe work environment by ensuring that tools and equipment are in good condition.
- Keep accurate records of work performed, including repairs, inspections, and preventative maintenance actions.

**Developing and growing talent and skills within  
Sierra Leone, for Sierra Leone.**

- Prepare reports on team performance, equipment status, and safety incidents for management review.
  - Assist in inventory management for air conditioning parts and tools to guarantee availability and proper usage.
  - Communicate effectively with other departments to coordinate maintenance schedules and resolve issues.
  - Liaise with management regarding team performance, work activities, and resource needs.
  - Develop and maintain effective relationships with vendors and suppliers to facilitate procurement of air conditioning parts and components.
- 

**EDUCATION & EXPERIENCE**

- A Diploma/Technical Trade Certificate or College Degree in Electrical/Mechanical Engineering or a related technical field is preferred.
- Specialized certification in automotive technology or air-conditioning systems is advantageous.
- 3 to 4 years of experience as an air-conditioning technician, specifically with heavy mobile equipment.
- Familiarity with HME Equipment, including Caterpillar ADT Trucks, Excavators, and Dozers.
- Proven experience diagnosing and troubleshooting AC issues across various equipment types.
- Possession of a valid driver's license.
- A combination of formal education and hands-on experience in automotive repair, particularly in HVAC systems.

**REQUIRED SKILLS**

- Strong leadership and team management skills.
  - In-depth knowledge of air-conditioning diagnostics and repairs for Caterpillar equipment.
  - Excellent problem-solving abilities and technical aptitude in automotive air conditioning systems.
  - Effective communication skills, both oral and written, with team members and supervisors.
  - Strong organizational skills, with the ability to prioritize tasks and manage multiple activities.
  - Proficiency in computer applications, including the MS Office Suite and other essential software.
  - Safety-conscious mindset with a firm commitment to comply with safety regulations.
-
