Job Advertisement

Developing and growing talent and skills within Sierra Leone, for Sierra Leone.

Position Title	Grade Controller	MML is an equal opportunity employer. Women are strongly encouraged to apply for roles at MML.
Job Code/Level	Below Supervisory Level	
No. of Positions	10	
Department	Mining	
Location	Marampa Mines Site, Lunsar	
Reporting to	Grade Control Supervisor	
Salary	Attractive	

ROLE AND PURPOSE

The Grade Controller monitors and controls the quality and grade of mined materials. This position is responsible for ensuring extracted materials meet specified quality standards and are processed efficiently. The Grade Controller collaborates with mining operations personnel, geologists, and other stakeholders to optimize production processes and maintain product quality.

RESPONSIBILITIES

- Continuously monitor the quality and grade of mined materials during the extraction process.
- Utilize various tools and equipment, such as sampling devices and assays, to assess material quality.
- Collect and record data related to material quality, including grade, composition, and any impurities or contaminants.
- Ensure that materials meet defined quality standards and specifications.
- Identify and report any deviations from the established quality criteria.
- Conduct sampling activities at various points in the mining process to analyze the material's quality.
- Work closely with mining operators, geologists, and other relevant personnel to coordinate sampling activities and communicate quality-related information.
- Ensure adherence to all safety, environmental, and regulatory requirements related to grade control in mining operations.
- Maintain and calibrate grade control equipment to ensure accuracy and reliability.

EDUCATION & EXPERIENCE

- Technical/vocational certificate, diploma or higher qualification in Mining or a related field.
- 2 years of relevant experience in the mining industry, including drilling and sampling.
