Job Advertisement

Developing and growing talent and skills within Sierra Leone, for Sierra Leone.

Position Title	Auto Electrician	MML is an equal-opportunity employer. Women are strongly encouraged to apply for roles at MML.
Job Code/Level	Below Supervisory	
No. of Positions	2	
Department	Engineering & Maintenance	
Location	Marampa Mines Site, Lunsar	
Reporting to	Mobile Workshop Supervisor	
Salary	Attractive	

ROLE AND PURPOSE

The auto electrician is a skilled professional responsible for installing, maintaining, and repairing electrical and electronic systems in various types of vehicles, including cars, trucks, and other automotive equipment. This role is critical to ensuring the safe and efficient operation of vehicles, as modern vehicles rely on complex electrical systems for various functions.

RESPONSIBILITIES

- Use appropriate tools and equipment to diagnose and resolve electrical/electronic issues on vehicles.
- Troubleshoot, perform routine maintenance, and repair electrical systems on vehicles.
- Troubleshoot and repair brake and suspension systems as deemed necessary.
- Maintain regular clean and professional appearance of vehicles.
- Collaborate with the team and other employees to diagnose and resolve vehicle problems.
- Responsibly utilise a variety of tools, equipment, vehicle parts, and materials to fix vehicles.
- Ensure effective communication with colleagues for clarity on concerns, estimates, and work procedures.
- Address all end-user concerns and questions on respective vehicles' electrical systems.
- Diagnose and resolve all automotive electrical systems on approved/authorised vehicles.
- Install components such as alternators, starter motors, horns, lights, and indicators/signals.
- Maintain compliance of all electrical work with safety and environmental regulations.
- Uphold proper procedures for handling hazardous materials and waste disposal.
- Maintain accurate records of all work performed, including parts used, labour hours, and service reports.

Developing and growing talent and skills within
Sierra Leone, for Sierra Leone.

EDUCATION & EXPERIENCE

- Senior Secondary School Certificate (WASSCE).
- A valid driver's license.
- Technical/Vocational trade certificate in Automotive Electrical/Electronic Engineering.
- Minimum of 5 years' experience in vehicles and machinery electrical servicing.

REQUIRED SKILLS

- Maintenance and repair skills on vehicle electrical systems.
- Good diagnostic skills and knowledge of electrical fault-finding.
- Excellent verbal communication skills (in English) and strong interpersonal skills.
- Attention to detail with an ability to work independently and as part of a team.
- Physical stamina and dexterity to work in various positions in and around vehicles.
- Knowledge of automotive electronics, engines, and chassis.

WORK ENVIRONMENT AND PHYSICAL REQUIREMENTS

- The individual must be physically and mentally fit for the mining work environment.
- Physical stamina and ability to lift reasonable weights and work in various conditions.
- Willingness to work extended hours, including weekends, holidays, and a shift roster system, during emergencies as may be required to meet operational needs.
