Job Code/Level	Below Supervisory	
No. of Positions	1	
Department	Engineering & Maintenance	
Location	Marampa Mines Site, Lunsar	
Reporting to	Mobile Workshop Supervisor	
Salary	Attractive	

ROLE AND PURPOSE

We are seeking a skilled and experienced welder to join our Engineering and Maintenance team. The successful candidate will be responsible for constructing, assembling, and repairing pressure vessels and other metal structures using various welding techniques. The ideal candidate should have a strong knowledge of fabrication methods, excellent welding skills, and a commitment to safety standards.

RESPONSIBILITIES

- Interpret blueprints, drawings, and specifications to determine layouts & welding requirements.
- Fabricate and assemble metal components (plates, pipes, and structural frameworks) based on engineering plans and project requirements.
- Perform welding operations using various techniques, such as shielded metal arc welding (SMAW), gas tungsten arc welding (GTAW), and gas metal arc welding (GMAW).
- Operate welding equipment and machinery (welding torches, grinders, and saws).
- Conduct inspections and tests on completed structures to ascertain quality standards and specifications.
- Read and interpret blueprints, drawings, and technical specifications to understand welding requirements, dimensions, and assembly instructions.
- Repair and maintain existing structures and replace defective parts.
- Collaborate with team members (engineers and fabricators) to achieve project goals.
- Adhere to all relevant safety protocols/regulations to enhance workplace safety.
- Ensure proper handling of welding equipment (regular cleaning and maintenance).
- Ensure commitment to safety protocols per safety regulations and procedures to maintain a safe working environment.
- Keep proper records of work, materials used, duration, and other relevant information.

Developing and growing talent and skills within
Sierra Leone, for Sierra Leone.

EDUCATION & EXPERIENCE

- Technical certificate/diploma in Welding from a recognised vocational institute.
- 5 years proven experience as a welder with a strong portfolio of completed projects.

REQUIRED SKILLS

- Proficiency in equipment, materials, various welding techniques: shielded metal arc (SMAW), gas tungsten arc (GTAW), gas metal arc (GMAW), flux-cored arc (FCAW) welding techniques and familiarity with relevant welding codes and regulations (e.g. ASME, AWS).
- Strong ability to
- Effectiveness in troubleshooting, and monitoring and evaluation skills with keen attention to detail for quality assurance and optimum accuracy.
- Excellent verbal communication skills (in English) and strong interpersonal skills.
- Attention to detail with an ability to work independently and as part of a team.
- Physical stamina and dexterity to work in various positions and weather conditions.
- Excellent hand-eye coordination and manual dexterity.

WORK ENVIRONMENT AND PHYSICAL REQUIREMENTS

- The individual must be physically and mentally fit for the mining work environment.
- Willingness to work extended hours, including weekends, holidays, and a shift roster system, during emergencies.
