

Position Title	Laboratory Sampler	MML is an equal opportunity employer, and women are strongly encouraged to apply.
Department	Processing	
Location	TRT Site, Thofeyim, Off Port Loko, Sierra Leone	
Reporting to	Laboratory Supervisor	

Position Summary

Marampa Mines Limited seeks to recruit dedicated, safety-conscious, and detail-oriented **Samplers (3)** to join the **TRT Laboratory Operations team**. The Sampler plays a critical role in ensuring the accuracy, reliability, and timeliness of sampling and analysis processes that support production and quality assurance activities. This position involves collecting, preparing, and processing samples from various sources, including stockpiles, conveyors, and barge load conveyors, in line with established QAQC protocols.

The role requires precision, strong coordination, and strict adherence to safety and quality procedures to support

Key Responsibilities

- Perform accurate and timely sampling of stockpiles, conveyors, and barge load conveyors during coaster loading.
- Conduct QAQC sampling between PLO and TRT, following approved sampling protocols and ensuring representative and traceable samples.
- Carry out sample preparation activities such as moisture determination, milling, and Particle Size Distribution (PSD) analysis.
- Maintain a clean, organised, and safe work environment across all laboratory workstations.
- Ensure proper labelling, handling, and documentation of all samples to maintain data integrity.
- Collaborate with laboratory analysts and supervisors to ensure smooth workflow and adherence to turnaround time targets.
- Conduct equipment checks and report any malfunctions or abnormalities promptly to the Laboratory Supervisor.
- Participate actively in HSE procedures, including the use of appropriate PPE and adherence to safe working practices.
- Participate in toolbox and shift meetings, contributing to a culture of teamwork, accountability, and safety.
- May be required to assist in other laboratory or field activities as operationally necessary.
- Mandatory use of Personal Protective Equipment (PPE).

Qualifications and Experience

- WASSCE, its equivalent or higher academic qualification.

- Minimum of 1 year experience in a laboratory, production, or process plant environment.
- Basic understanding of sampling techniques, laboratory procedures, and quality assurance principles.
- Experience in sampling, material testing, or QAQC operations will be an advantage.

Skills and Competencies

- Attention to detail and commitment to accuracy in sampling and data recording.
- Good communication and teamwork skills for effective coordination with relevant stakeholders.
- Sound understanding of safety standards and procedures in laboratory and plant operations.
- Reliability, discipline, and proactiveness in identifying potential risks or inefficiencies.
- Ability to follow instructions precisely and work under minimal supervision.
- Demonstrated commitment to maintaining quality and environmental standards.

Work Environment and Physical Requirements

- The individual must be physically and mentally fit for a fast-paced work environment.
- Standard office hours apply, and may require flexibility for weekends, holidays, shift and roster patterns.

HOW TO APPLY & CLOSING DATE

Please forward your application, including your CV, cover letter, copies of your educational and professional certificates, and any other supporting documents.

To **Marampa Mines Limited. Human Resources** desk via the main entrance gate of the Mine Site, Lunsar, or e-mail:

MMLRecruitment@marampamines.com
<https://marampamines.com/careers/>

The closing date for receipt of applications is 7th November 2025.

Only shortlisted candidates will be contacted and may be required to perform written and practical assessments, where applicable.

Women are strongly encouraged to apply for roles at MML.
